8 **SEC. 201. IMPROVEMENT OF OVERSIGHT OF BIOCONTAIN-** 9 **MENT LABORATORIES.**

10 (a) DEFINITION.—For purposes of this section, the
11 term “high containment biological laboratory” means a
12 laboratory that has Biosafety Level 3 or Biosafety Level
13 4 facilities, as defined by the Secretary of Health and
14 Human Services and the Secretary of Agriculture.

15 (b) EVALUATION.—The Secretary of Health and
16 Human Services, in coordination with the Secretary of Ag-
17 riculture, and in consultation with the Secretary of De-

23 under subsection (b), the Secretaries shall consider—

24 (1) whether the construction of high contain-
25 ment biological laboratories that are in existence or

1 planned as of the date of enactment of this Act, is
2 likely to provide sufficient capacity for the needs of
3 Government biodefense and infectious disease re-
4 search;

5 (2) how laboratory capacity and lessons learned
6 can be best shared across the biodefense and infec-
7 tious disease research communities, domestically and
8 internationally;

9 (3) whether guidance on laboratory infrastruc-
10 ture, commissioning, operation, and maintenance of
11 such laboratories is adequate, and if such guidance
12 is found to be inadequate, how to improve and
13 streamline such guidance; and

14 (4) ways to improve and streamline the training
15 of the personnel of such laboratories, including rec-
16 ommendations regarding the minimum standards for
17 laboratory biosafety and biosecurity training under

7 Human Services and the Secretary of Agriculture.

8 (b) DEVELOPMENT OF MINIMUM STANDARDS.—The
9 Secretary of Health and Human Services, acting through
10 the Director of the Centers for Disease Control and Pre-
11 vention and the Director of the National Institutes of
12 Health, and in coordination with the Secretary of Agri-
13 culture and scientific experts representing appropriate
14 professional groups and international health organiza-
15 tions, shall develop minimum standards for laboratory bio-
16 safety and biosecurity training for relevant personnel of
17 high containment biological laboratories. In developing
18 such standards, the Secretary of Health and Human Serv-
19 ices shall consider existing laboratory guidelines and train-
20 ing modules.

21 (c) REQUIREMENT FOR APPROVAL.—A person may
22 not register with the Secretary of Health and Human
23 Services or the Secretary of Agriculture for the possession,
24 use, or transfer of listed agents in accordance with section

17 Human Services, in coordination with the Secretary of Ag-
18 riculture, (referred to in this section as the “Secretaries”)

21 cal laboratories may voluntarily report biosafety or bio-
22 security incidents of concern and the Secretaries may
23 identify trends in such incidents and protocols for bio-
24 safety or biosecurity improvements. In developing such re-
25 porting system, the Secretaries shall consider options for

1 integrating existing voluntary and required reporting
2 mechanisms.
