Research Occupational Health

A distance learning opportunity

November 9, 2017
12:00 – 2:00pm (CST)

Occupational Health is often referred to as a multi-disciplinary approach to developing and ensuring compliance with safe working practices, and maintaining the health and well-being of those employed in a particular occupation or workplace. This live webinar will focus on the latest in occupational health information and will include a wide range of topics to be considered in an effective occupational health program including developing appropriate questionnaires and trainings for everything from allergies and zoonotic diseases to exposure response and good record keeping. In addition, topics of special interest, such as travel medicine and reproductive toxicity, will be introduced.

This webinar will be a 2-hour webinar session on Thursday, November 9, 2017 at 12:00pm CST. For the webinar, you should plan on logging in at 11:45am (CST) on November 9. You are required to attend the webinar session, complete the pre and post assessments, and evaluation in order to earn P.A.C.E.® Contact Hours*. The link in the invitation will be unique to the user and cannot be shared.

Topics:

- Initial and periodic health questionnaires
- Allergies
- Respiratory protection program
- Regulatory compliance
- Confidentiality of medical records and HIPAA compliance
- High risk agents and toxins
- Reliability & suitability training
- Fitness-for-duty evaluations
- Exposure response procedures
- Onsite exposure response
- Reproductive toxicity
- Zoonoses
- Travel medicine and/or vaccine administration
- Animal Allergens
- Lab Animal Allergy

Upon completion of this webinar, participants will be able to:
1. Describe the basic components of a research-related occupational medicine program
2. Develop strategies to manage animal allergies
3. Vaccinate workers with vaccines appropriate for their research projects

The webinar will be presented by Thomas H. Winters, MD, FACOEM, FACPM, Harvard School of Public Health, Boston, MA and T. Warner Hudson, MD FACOEM, FAAFP, University of California—Los Angeles Health System and Campus, Los Angeles, CA.

WHO SHOULD ATTEND
Laboratory Workers, New & Experienced Biosafety Professionals, Laboratory Management, Principal Investigators, Occupational Health Workers, Infection Control Practitioners, Biosecurity Professionals, and Animal Facility Managers

SUGGESTED BACKGROUND
Participants should have a basic understanding of an occupational health program
