The Association for Biosafety and Biosecurity

1200 Allanson Road • Mundelein, IL 60060-3808 • 866-425-1385 • Fax: 847-566-4580 • E-mail: info@absia.org • Web Site: www.absia.org

## Biosecurity at the Interface of Personalized Medicine, Gene Transfer, and Occupational Health

*A distance learning opportunity*

**January 23, 2019**

11:00 – 1:00pm (CST)

**Biosecurity at the Interface of Personalized Medicine, Gene Transfer, and Occupational Health** is a novel webinar that examines discrete elements of biosecurity with respect to applied medicine. New therapeutics are making their way from the research bench to the clinical environment, forcing a healthcare and occupational health professionals to embark into biosecurity in ways not previously considered. While biosecurity has predominantly focused on laboratory settings, we must also examine the impacts of these products at both the medical profession and patient levels. This course will occur over a 2-hour special session. At the conclusion, participants will understand the growing interface of biosecurity in the clinical setting, particularly relevant to research programs that neighbor hospital and clinical settings. The webinar will be led by experts in biosecurity and the advancing fields of personalized medicine, gene transfer, and occupational health.

This webinar will be a 2-hour session on Wednesday, January 23, 2019 at 11:00am CST. For the webinar, you should plan on logging in at 10:45 am (CST) on January 23. You are required to attend the webinar session, complete the pre-course and post course assessments, and complete the evaluation in order to receive the completion certificate through the ABSIA International Training Site. The link in the invitation will be unique to the user and cannot be shared.

Upon completion of this webinar, participants will be able to:

- Summarize the developing complexities of biosecurity entering clinical environments
- Paraphrase how new therapeutic products impart not only biosafety, but also biosecurity considerations
- Identify opportunities for biorisk management professionals to engage healthcare professionals toward a comprehensive risk and threat mitigation strategy

The webinar will be presented by **Ryan N. Burnette, PhD**, Director, Biosafety & Biosecurity Programs, Merrick & Company, Greenwood Village, CO.

### **WHO SHOULD ATTEND**

- Regulatory compliance and Research support personnel- VPs of Research, General Counsel, Risk Management
- Security, medical professionals, EHS, Biosafety and biosecurity personnel at academic and healthcare institutions
- Institutional Biosafety Committee and Institutional Review Board members with purview over personalized medicine, gene transfer studies, and occupational health issues.

### **COURSE FEES**

	<b>Pre Dec 12</b>	<b>Post Dec 12</b>
___ ABSA Members	\$110.00 USD	\$130.00 USD
___ Nonmembers	\$175.00 USD	\$195.00 USD

In order to obtain the ABSIA member rate, the participant will need to be an ABSIA member in the year in which the training is offered. Course fees include: course handouts, access to the ABSIA International training site, and 2-hours of interactive instruction from well-respected subject matter experts.

Group Discount: 10% off registration for 3-4 participants from the same organization; 20% off registration for 5-9 participants from the same organization; 30% off registration for 10 or more participants from the same organization

### **TECHNICAL REQUIREMENTS**

Internet access and phone is needed. Go To Webinar requirements can be found through the [check system requirements](#).

### **QUESTIONS**

Please direct questions about this course to:

KariAnn DeServi, Director of Education, ABSIA Office, 866.425.1385 (toll free), Email: kariann@absiaoffice.org

*This course has been approved for 0.25 CM points toward RBP/CBSP recertification. \* ABSIA International is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program. This course is approved for 2.00 P.A.C.E.® contact hours. The links to the various invitations for the course will be unique to the user and cannot be shared. The links are for single, individual use only. If more than one occurrence of an individual's name is on the attendee list for the webinar through Go To Webinar, all instances of that person's name will be removed from the webinar with no refund. The webinar and its associated links are for single, individual use only.*
