### 03. Fundamentals of Microbiology and Infectious Disease

*A distance learning opportunity*

**May 16 and 23, 2023**

12:30 – 3:00pm (CDT)

**Fundamentals of Microbiology and Infectious Disease** is intended for those professionals that participate in protocol review, facilities planning, and any other risk assessment activities, but are unsure as to the actual nature of the disease risks of microbiological agents. Biological safety and risk assessment will *not* be covered in this course. The proposed topics will cover infectious agents, virulence factors, pathogenicities, host-microbe interactions, susceptibility, modes of transmission, and the changes seen in the microbial world. If you don't know the difference between a TCID<sub>50</sub>, PFU, or ID<sub>50</sub>; or why HBV is stable in dried blood and HIV is not; or why influenza is an inhalation hazard; or why public health officials advocate flu shots each year—then this course is for you.

This webinar will be two 2.5-hour webinar sessions on Tuesday, May 16, and Tuesday, May 23, 2023, at 12:30pm (CDT). For the webinar, you should plan on logging in at 12:15 pm (CDT) on May 16 and May 23. You are required to attend the webinar sessions, complete the pre-course and post course assessments, and complete the evaluation in order to receive the completion certificate through the ABSA International Training Site. The link in the invitation will be unique to the user and cannot be shared.

Upon completion of this webinar, participants will be able to:

- Define different microorganisms and their pathogenicity
- Restate the various modes of transmission of microbial pathogens
- Correlate the host response to microbial infections
- Develop a basis of understanding for various environmental survival trends

The webinar will be presented by **James Klenner, MSc, MPH, MPA, RBP(ABSA), CBSP(ABSA)**, Ball State University, Muncie, Indiana.

#### **WHO SHOULD ATTEND**

- All Safety Professionals
- New Biosafety Professionals
- Laboratory Workers

#### **COURSE FEES**

___ABSAs Members	\$225.00 USD
___Nonmembers	\$360.00 USD

To obtain the ABSA member rate, the participant will need to be an ABSA member in the **year** in which the training is offered. Course fees include: course handouts, access to the ABSA International training site, and 5-hours of interactive instruction from a well-respected subject matter expert.

Group Discount: 10% off each registration for 3-4 participants from the same organization; 20% off each registration for 5-9 participants from the same organization; 30% off each registration for 10 or more participants from the same organization. *Please call the ABSA Office to register your group*

#### **QUESTIONS**

Please direct questions about this course to:

Kari DeServi, MEd, Director of Education, ABSA Office, 866.425.1385 (toll free), Email: [education@absa.org](mailto:education@absa.org)

This course has been approved for 0.75 CM points toward RBP/CBSP recertification. \*ABSA International is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.<sup>®</sup> Program. This course is approved for 6.00 P.A.C.E.<sup>®</sup> contact hours.

*The links to the various invitations for the course will be unique to the user and cannot be shared. The links are for single, individual use only. If more than one occurrence of an individual's name is on the Zoom attendee list or a name not of the roster, all instances will be removed from the webinar with no refund. The webinar and its associated links are for single, individual use only.*
