

11. Large-scale Biosafety A distance learning opportunity **July 19 and 26, 2023** 12:30 – 3:00pm (CDT)

Large-scale Biosafety will review biosafety for work at large-scale, which the NIH rDNA Guidelines defines as >10L. The course will review Appendix K from GLSP to BSL-3 LS, with a focus on primary and secondary containment. It will review basic bioprocessing steps, such as fermentation/cell culture and purification technologies. Examples of classic and newer single use technologies will be provided. Pearls and pitfalls of the various technologies will be discussed, using various scenarios. The course will include a review of risk assessment techniques used for large scale bioprocesses and a discussion of large-scale related to vaccines, viral vectors, and recombinant proteins.

This webinar will be two 2.5-hour sessions on Wednesday, July 19, and July 26, 2023, at 12:30 pm CDT. For the webinar, you should plan on logging in 15 minutes ahead of the start of each session. You are required to attend the webinar session, complete the pre-course and post course assessments, and complete the evaluation in order to receive the completion certificate through the ABSA International Training Site. The link in the invitation will be unique to the user and cannot be shared.

Upon completion of this webinar, participants will be able to:

- Recognize large scale bioprocessing technologies, the inherent risks and how to perform and document risk assessments
- Describe the advantages and disadvantages of single use biotechnology equipment. Plan for issues of waste disposal and emergency response
- Restate the components of the NIH rDNA Guidelines Appendix K and how to implement them for large scale bioprocessing projects

The webinar will be presented by **Brian Petuch, RBP(ABSA), CBSP(ABSA),** Biosafety Project Manager, International Safety Systems, Inc., Columbus, New Jersey

WHO SHOULD ATTEND		
All Safety Professionals		Laboratory Workers
Experienced Biosafety Professionals		Laboratory Management
COURSE FEES		
ABSA Members	\$225.00 USD	
Nonmembers	\$360.00 USD	

To obtain the ABSA member rate, the participant will need to be an ABSA member in the year in which the training is offered. Course fees include: course handouts, access to the ABSA International training site, and 5 hours of interactive instruction from a well-respected subject matter expert.

Registration deadline: registration closes 48 hours before the start of the webinar.

Group Discount: For all registration discounts, participants must be from the <u>same organization</u> and <u>registered concurrently</u>: 10% off registration for 3-4 participants; 20% off registration for 5-9 participants; 30% off registration for 10 or more participants. Please call the ABSA Office to register your group.

QUESTIONS

Please direct questions about this course to:

Kari DeServi, MEd, Director of Education, ABSA Office, 866.425.1385 (toll free), Email: education@absa.org

This course has been approved for 0.75 CM points toward RBP/CBSP recertification. *ABSA International is approved as a provider of continuing education programs in the clinical laboratory sciences by the ASCLS P.A.C.E.® Program. This course is approved for 6.00 P.A.C.E.® contact hours. The links to the various invitations for the course will be unique to the user and cannot be shared. The links to the various invitations for the course will be unique to the user and cannot be shared. The links to the various invitations for the course will be unique to the user and cannot be shared. The links are for single, individual use only. If more than one occurrence of an individual's name is on the Zoom attendee list or a name not of the roster, all instances will be removed from the webinar with no refund. The webinar and its associated links are for single, individual use only.
