

05. Biosafety and Good Manufacturing Practices (GMP): How to Live in Harmony

A distance learning opportunity

March 6, 2024

12:00 – 2:00 PM (CST)

Biosafety and Good Manufacturing Practices (GMP): How to Live in Harmony is a webinar that will help anyone who works in a GMP/quality environment that also must consider biosafety requirements. The webinar will discuss what GMP is, why it is important, and how to harmonize GMP and biosafety requirements and regulations. At the conclusion, participants will understand what GMP is, why it is critical for manufacturing facilities, and how to ensure biocontainment is maintained while also ensuring product safety. The webinar will be led by a biosafety professional with over 5 years' experience in a GMP/manufacturing environment.

This webinar will be a 2-hour session on Wednesday, March 6, at 12:00 pm (CST). For the webinar session, you should plan on logging in 15 minutes prior to the start time. You are required to attend the webinar session, complete and/or open all the modules in the course on the training site to receive the completion certificate through the ABSA International Training Site. The link in the invitation will be unique to the user and cannot be shared.

Upon completion of this webinar, participants will be able to:

- Recognize what GMP means and what quality requirements are
- Recognize that GMP and biosafety requirements must be aligned to ensure both quality and biosafety are met
- Determine what needs to be considered when assessing or reviewing biosafety requirements in a GMP setting, including conducting risk assessments, reviewing facility designs/renovations, considering emergency response, and working with different stakeholders

The webinar will be presented by the following subject matter experts:

Rebecca McGirr, MSc, RBSO(CABS), RBP(ABSA), Sanofi, Toronto, Ontario, Canada

WHO SHOULD ATTEND

- Biosafety professionals in government, industry, academic and other institutions/organizations
- Anyone who is involved in the design, risk assessment, or compliance of a GMP facility that is BSL-2 or higher

COURSE FEES

___ ABSA Members	\$110.00 USD
___ Nonmembers	\$185.00 USD

To obtain the ABSA member rate, the participant will need to be an ABSA member in the year in which the training is offered. Course fees include: course handouts, access to the ABSA International training site, and 2 hours of interactive instruction from a well-respected subject matter expert.

Group Discount: 10% off registration for 3-4 participants from the same organization; 20% off registration for 5-9 participants from the same organization; 30% off registration for 10 or more participants from the same organization

QUESTIONS
